ACADEMIC EXPERIENCE

Statistical Analysis & Data Interpretation | Moi University   2025 - present

- Analyzed data to identify trends,patterns and relationship using statistical techniques
- Conducted data extrapolation and forecasting to predict future outcomes from historical data
- Prepared and interpreted graphs,tables and charts to clearly communicate insights
- Applied data mining methods in analysis of experimental and survey data
- Compiled statistical summaries and analytical reports for academic assessment

SKILLS

- Data Analysis & interpretation
- Statistical Modeling
- Probability & Hypothesis t Testing

- Data Visualization
- Python(Data Analysis)
- Statistical Computing Concepts

EDUCATION

Bachelor Of Science In Applied Statistics With Computing|Moi University   Sep 2024 TO-DATE

- Third-year student seeking industrial attachment in Data Analysis / Data Science.

- Relevant Coursework: Statistical Methods, Data Analysis, Forecasting & Time Series, Statistical Computing, Research Methods

- 2020 – Present

INTERESTS

- Data-driven problem solving
- Reading educational materials
- Football
